Professional Summary

Full Stack Web Developer with **2+ years** of experience building scalable web and desktop applications using **Node.js**, **Express.js**, **React.js**, and **Electron.js**. Proven track record of delivering production-ready solutions, including **RESTful APIs**, real-time systems using **SSE**, and secure **JWT**-based authentication, serving 5,000+ users. Experienced in optimizing admin workflows and improving system performance in product-based environments.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Electron.js
- **Backend:** Node.js, Express.js, RESTful APIs, SSE (Server-Sent Events), JWT Authentication
- **Database:** MySQL, MongoDB
- **Cloud & Tools:** AWS S3, Git.
- **Other:** SEO, Responsive Design

WORK EXPERIENCE

Web Developer — Skyraan Technologies (Product-Based Company), Coimbatore

September 2023 — December 2025

- Designed and developed RESTful APIs using Node.js and Express.js and responsive web applications with React.js, supporting 5,000+ active users.
- Built a secure Electron.js desktop application with task management, scheduling, and performance analytics, increasing internal team productivity.
- Implemented Server-Sent Events (SSE) for real-time queue notifications, reducing customer wait times by 15%.
- Customized Ant Design-based admin dashboards, reducing data management and operational effort by 25%.
- Collaborated with cross-functional teams to deliver scalable and maintainable product features.

Front End Intern — Senchola

June 2023 — September 2023

- Developed responsive web interfaces in collaboration with the development team, leveraging HTML, CSS, JavaScript, and React.js to enhance usability and performance.

PROJECTS

Queue Management System (Desktop Application)

- Developed a desktop Queue Management System (QMS) with **Electron.js**, **React.js**, **Node.js/Express.js**, and **MySQL** to streamline employee tasks and queues.
- Implemented real-time notifications using **SSE**, improving responsiveness and reducing wait times.
- Built modules for Queues, Task Management, Meetings, and Tickets with role-based access control.

Eduraan Application

- An educational app for kids focused on learning and practice.
- Developed secure RESTful APIs with **JWT authentication**, type-based request handling, and proper status management.
- Built an Admin dashboard with dynamic content categorization and course/resource management. Application published on [Google Play](#) and [App Store](#).

Mehndi Application

- Developed scalable Node.js/Express APIs handling 500+ concurrent users, optimized with a last-time-fetched approach, and built an admin panel for content management. Application published on [Google Play](#) and [App Store](#).

Resume Builder Application

- Engineered Node.js backend APIs for HTML-to-PDF resume generation for 5,000+ users and developed an admin panel for template management. Application published on [Google PlayStore](#).

EDUCATION

- Bachelor of Engineering (Mechanical)

Sri Krishna College of Technology,
Coimbatore

July 2016 — April 2020
8.26

CERTIFICATION

Qtree Technologies (Coimbatore)

- Python Full Stack - Training Course

January 2023 - June 2023
